

TECHNICAL REQUIREMENTS EKP

Recommended Specifications

- Intel Pentium processor at 600 (or higher) MHz
- Memory: 64 MB RAM
- Internet Speed: 56K+, but preferably broadband
- Sound Cards: SoundBlaster compatible + Speakers
- Windows 2000, XP or Vista
- Office 2000
- Internet Explorer 6.0 or higher
- All versions of Firefox
- Adobe Flash 6.0
- Adobe PDF Reader 6+

High Level Course Requirements Client Internal Network:

Firewall and virus scanner should support Java/ActiveX on the Supply Chain Academy and EKP website. These sites use java-script heavily, especially in the course architectures (www.supplychainacademy.com and purspective.ekphost.com need to be added to the trusted sites list). For both portals it is also essential that Java Applets are enabled. You can check your browser's compliance with JavaScript and Java Applets on www.bodo.com/javame.htm

User Machine Requires

- MSXML Parser 3.0 or above
- Microsoft Virtual Machine or Sun Java RTE; software plug-in needed to enable Java Applets. This can be downloaded from www.java.com
- JavaScript needs to be enabled
- Need to Allow Session Cookies under Privacy Settings if Privacy set to higher than Medium in Internet Explorer
- Security level should be set on 'Normal / Medium at max' (Internet Explorer)
- Need to enable Automatic Prompting for file downloads under security settings in Internet Explorer
- Pop-ups should be enabled (do not use pop-up blocker, like the one in the Google tool-bar)

TECHNICAL REQUIREMENTS SCA

Recommended Specifications

- Intel Pentium III processor at 800 (or higher) MHz or Intel Celeron processor at 800 (or higher) MHz
- Memory: 128mb+
- Internet Speed: 56K+, but preferably broadband
- Sound Card and either Speakers or headphones are required for many courses
- Windows 2000, XP, or Vista
- Internet Explorer 6.0 or higher
- Adobe Flash 7.0
- Adobe PDF Reader 6+
- Office 2000
